

## The Infinite Potential of Materials

Our belief that the progress of materials technology is to raise the values of our life

Technology for better life, This is what Huvis strives for

# Huvis opens up **the infinite potential of materials**

The advancement in materials technologies will make the world  
a better place for all of us,  
Huvis will work harder to develop materials  
technologies to enrich our tomorrow.

**The Infinite potential of Materials**  
Technology for **better performance**  
Technology for **better safety**  
Technology for **better life**

# Company Overview

## Advanced Materials Technology, Belief that will enhance the quality of life

**Kim Sukhyun**  
CEO

In 2000, SK Chemicals and Samyang Corporation created Huvis, the top fiber company in Korea, by combining their most advanced technology, know-how, and the world's best production capacity.

Huvis, the leading chemical fiber producer in Korea, operates manufacturing plants in Jeonju, China, America, and R&D Center in Daejeon. The company produces 600,000 tons of fiber materials per year including polyester fibers, polyester resin, super fibers and industrial materials.

Huvis is striving to develop high-value materials with the belief that advanced materials and technology will create a better future and make all your dreams come true.

# Huvis making a better tomorrow by **developing materials for humans**

The progress in the materials industry enriches our life.  
Huvis will strive to develop materials technology for a brighter future.

## Safety

We fulfill our responsibility to create a workplace that is safe and free from risks and accidents

- Respect for everyone
- Compliance with regulations
- Prevention

## Trust

We gain the trust from our customers and society through mutual respect and ethical management

- Mutual Respect
- Ethics
- Responsibility

## Core Value

## Challenge

In order to achieve Vision, we challenge ourselves with optimism and a progressive attitude

- Positive Thinking
- Enterprising Behavior
- Initiating Change

## Excellence

We increase our competitiveness and results by combining interest, passion and wisdom

- Enthusiasm
- Power of Execution
- Value Creation

# Company History

## 2000 - 2005

Building a foundation for growth  
**Integration and a new start**

2000

- 07 Agreement made SK Chemicals -Samyang Corporation to established a joint venture

- 11 Established Huvis Corporation (CEO : Cho Minho)

2002

- 12 Established Huvis Sichuan (China)

2004

- 04 Established Hangzhou Huvis Synthetics Inc.
- 12 World-Class Product 'Stretch yarn'

## 2006 - 2011

Improving competitiveness through R&D  
**Expansion of differentiated products and launch of Super Fiber**

2006

- 08 Moon Sunghwan became CEO

2009

- 06 The 16th Samwoodang Award 'CEO Moon Sunghwan' (Huvis in the Export class)

## 2012- 2016

Listing on the securities market  
**Business diversification of business and new market entry**

2012

- 02 Listed on Korea Stock Exchange (KOSPI)
- 03 Acquired AEO Certification (A Grade)
- 07 'Zentra' NEP certification
- 12 World-Class Product 'National Merit Enterprise'

2001

- 11 World-Class Product 'LMF'

2003

- 06 Dupont strategic alliance

2005

- 01 Established Daejeon R&D center

2007

- 05 Received the Environment Minister's Award 'Huvis Jeonju plant'
- 12 Jeonju City Industrial Peace Award 'Huvis Jeonju plant'

2011

- 03 Yoo Baekeun became CEO
- 12 World-Class Product 'Conju'

2013

- 12 World-Class Product 'PPS Fiber'

**World Class Product**

**LMF**

Low-melting-point adhesive fiber

**SSY**

Latent and potential crimped stretch yarn

**Conjugate**

Filler hollow fiber

**ZetaOne**

PPS Fiber

**Purever**

Sanitizers Fiber

**Lomela**

Low-melting-point bonding yarn

**Minimax**

Short Cut Fiber

**Dope dyed LM**

Black Binder Staple Fiber

## 2017 - 2020

Seeking globalization

To enhance global competitiveness

### 2018

- 04 Establishment of Huvis Global Corporation
- 05 'ECOPET', received an award at the WPO World Star Awards
- 06 Established Huvis Indorama Advanced Materials (US)
- 08 Established Nantong Yongsheng Huvis Advanced Synthetics Inc (China)
- 12 'LMF' received Korea Patent Technology Award

### 2020

- 03 'ECOPET' received Jang Young-shil Awards
- 04 Integration of Jeonju-Ulsan Plants

## 2021 -

2050 Carbon Neutrality Master Plan

The inaugural year of ESG management

### 2022

- 11 Received the Gold Tower Order of Industrial Service Merit in the 36th Textile Day 'CEO Shin Youdong'

### 2024

- 03 Kim Sukhyun became CEO
- 11 World-Class Product 'Dope dyed LM'

### 2014

- 11 Acquired HuvisWater
- 12 World-Class Product 'Purever'

### 2016

- 11 Acquired Industrial Materials division of Samyang corporation

### 2015

- 01 Acquired Sound Absorbing Insulation Materials Division of SK Chemicals

### 2017

- 03 Shin Youdong became CEO
- 04 'ECOPET', received the prime minister's award in 11th GOV Award for Future Packaging New Technology
- 12 'ECOPET', received an award at the APE Asia Star Awards

### 2019

- 11 Established Chongqing Huvis Eco Pack Materials Co.,Ltd (China)
- 12 'LMF', NET(New Excellent Technology) Certification

### 2021

- 11 World-Class Product 'Lomela'

### 2023

- 11 World-Class Product 'MINIMAX'

Next World Class Product

**MetaOne**  
Meta-Aramid

**DURARON**  
High-performance PE fiber

**EBBR**  
Geogrids for civil engineering

**TRIGRID**  
Eco-friendly hollow fiber

**Polarfil**  
High-luster long fiber

**Ecoever**  
Eco-friendly recycled yarn

**ecoen**  
Biodegradable PET fiber

## Business Area

Domestic No. 1 in SF market share  
Global No. 1 in LMF market share  
Global No. 1 in Conju market share

### Polyester Staple Fiber

500,000 tons / year •  
Shortly cut cotton type •  
For Car, Industrial, Sanitizers •

Global No.1 in PPS Fiber market share  
The first provider of Meta  
Aramid in Korea

### Super Fiber

Meta Aramid, PPS Fiber, HPPE Fiber •  
For Fire protective gear, Bag filter, •  
Protective clothing  
※HPPE Fiber :  
High Performance Polyethylene Fiber

### PET Resin

PET resin (Grain type) •  
For Fiber, PET bottle, Film •

# Busi Ar

## Product

### ○ Polyester Staple Fiber

Leading fiber of Huvis that occupies the biggest market share in the world

**Low Melting Fiber**  
Adhesive materials used  
across industries

**P-Pol**  
Adhesive alternatives  
to PP for automotive applications

**Conjugate**  
No.1 fiber for stuffing

**Purever**  
No.1 fiber for sanitizers

**MINIMAX**  
Short cut fiber with  
excellent dispersibility

### ○ Super Fiber

High-performance fiber that can withstand high temperatures and is far stronger than regular fiber

**MetaOne**  
Korea's first meta-aramid

**ZetaOne**  
Global No.1 in PPS Fiber market share

**Duraron**  
High performance polyethylene fiber  
for cut resistant glove

### ○ Environment Friendly Materials

Biodegradable fiber or recycled yarn made from used PET products

**Ecoever**  
Yarn made from recycled  
PET bottles

**ECOEN**  
Biodegradable PET fiber

**Ecoever LM**  
Eco-friendly recycled bonding fibers

### Polyester Filament Yarn

- Thread type
- For Apparel, Interior, Industrial

Domestic No. 1 in differentiated fiber market share

### Industrial Materials

- Production of various industrial materials
- High tenacity yarn, Spunbond, Geogrid
- Non-woven fabric for Automobile
- Non-Woven fabric for Constriction

Domestic No. 1 in high tenacity yarn market share

### Materials for Household Items

- Produce Materials for household items, harmless to humans
- Eco-friendly food container materials
- High functional non-woven fabrics for cosmetics

## Polyester Filament Yarn

Fiber with functions differentiated with the unique core technology of Huvis

**CEY**

**CEY**

A conjugate yarn combining stretch and emotion

**SPN**

**SPN**

Low denier split type microfiber

**Lomela**

**Lomela**

Low temperature thermal bonding material

**DURARON<sup>Cool</sup>**

**Duraron cool**

High Performance Cool Touch yarn

## Industrial Materials

Industrial materials are used in a variety of key industries

**TRIRON**

**TRIRON**

Filament fibers for industrial materials 'High tenacity yarn'

**TRIBON**

**TRIBON**

PP filament non-woven fabrics

**GREENNOVA**

**GREENNOVA**

An eco-friendly sound absorbing material

**GREENVIVA**

**GREENVIVA**

An eco-friendly sound absorbing insulation material

**TRIGRID**

**TRIGRID**

Geogrid, reinforcing material for civil engineering

## Materials for Household Items

Materials for household items, harmless to humans

**ECOPET**

**ECOPET**

Eco-friendly food packaging material

**Feeliv**

**Feeliv**

High functional non-women fabrics for cosmetics

## Safety

We suggest ways to keep our family safe and protect our environment.

## Health

We help people leave a healthier life with excellent products.

## Environment

We aim to preserve nature for the next-generation.

# Subsidiary Company

## Value beyond fiber,

Sichuan Huvis enhances the quality of life through researches on human-friendly material technology

Sichuan Huvis, located in Zigong City, Sichuan Province, China. It produces the largest amount of conjugate fiber in the world, and produces differentiated products like LMF and microfiber. While concentrating on the domestic Chinese market (about 80%), it is actively trying to make inroads into the markets of more than 40 countries including the US, Turkey and Southeast Asia. Thanks to its commitment to ongoing R&D, the company advanced into the applied fields of chemical fibers, such as sanitary materials and non-woven fibers for automobiles, architectural and agricultural materials. Since 2015, the company has been focusing on expanding the sales of differentiated high-profit products in China, including Hygiene bico.
